Important Information About Damage Caused by Flooding

This policy does not cover damage to your property caused by flooding. Flood insurance is available for properties within communities that participate in the National Flood Insurance Program (NFIP). The NFIP is a federally backed flood insurance program, which is administered by FEMA, a federal government agency. American Family Insurance is a participating insurance carrier of the NFIP Write-Your-Own program. If your community participates in the NFIP, your American Family agent can assist you in obtaining flood insurance through the NFIP.

Not all communities participate in the NFIP. However, flood insurance may still be available even if you do not live in a participating community. Contact your American Family Insurance agent to discuss your flood insurance options.
